Methodology

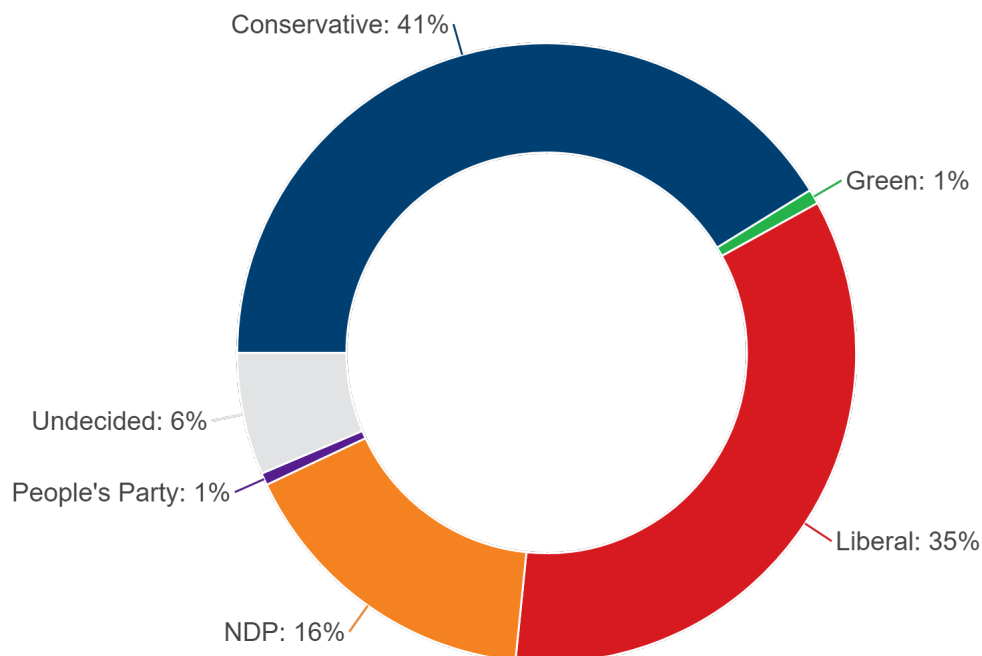

This survey was conducted from Tuesday, April 8th to Friday, April 11th among a sample of 386 voters in the riding of Saskatoon-University. The survey was conducted using IVR (Interactive Voice Response) to landlines and cell phones.

The data in this report have been weighted to be representative of gender and 2021 federal election voting history of Saskatoon-University residents.

After data weighting, the margin of error for a poll of this size is +/- 5.41% at the 95% confidence level.
